CAREER OBJECTIVE

Motivated Computer Science student with strong foundations in programming, data structures, and core subjects like operating systems, databases, and computer networks. Hands-on experience in building projects and working with modern technologies, with a keen interest in problem-solving and software development. Seeking an opportunity to apply technical skills and grow in a dynamic and challenging environment.

EDUCATION

- **Bachelor of Technology in Computer Science and Engineering** September 2023 – Present
Technocrats Institute of Technology, Bhopal CGPA (up to 4th Semester): 7.30 / 10
- **BSEB – Class XII** 2020 – 2022
Raghunath Vidyamandir +2 School, Kalasan, Madhepura Percentage: 72.6%
- **BSEB – Class X** 2020
Gokhul Bhagat Higher Secondary School, Bhatgama, Madhepura Percentage: 73%

TECHNICAL SKILLS

- **Programming:** C++, Python, Java
- **Core CS:** Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks
- **Databases:** MySQL, MongoDB
- **Cyber Security:** Web Security, Network Security (Basics), Penetration Testing
- **Tools & Technologies:** Nmap, Burp Suite, Wireshark, Git, Linux (Kali/Ubuntu), Windows, VS Code
- **Other:** Machine Learning & Artificial Intelligence (Fundamentals), APIs, Microsoft Excel, Microsoft Word

SOFT SKILLS

- Problem Solving & Analytical Thinking, Team Collaboration & Management, Continuous Learning & Adaptability, Effective Communication

PROJECTS

- **Secure Password Manager System (Group Project)** 2025
C++
 - **Description:** Built a secure password manager with C++ using file handling for efficient credential storage and retrieval. Designed user authentication and controlled access mechanisms.
 - **Security:** Implemented XOR-based encryption to secure stored passwords, enhancing data confidentiality and protecting against unauthorized access.
- **AI-Based YouTube Automation Pipeline (Solo Project)** 2026
Python, OpenAI API, YouTube Data API, Google Drive API, OAuth 2.0
 - **Description:** Developed an end-to-end automation pipeline using Python to generate, process, and upload YouTube content using AI. Integrated OpenAI API for content generation and automated file handling with Google Drive API.

ACHIEVEMENTS AND RESPONSIBILITIES

- Solved **1000+ coding problems** on platforms like CodeChef and other competitive programming sites.
- Completed **100+ hands-on cybersecurity labs** on platforms such as TryHackMe and Hack The Box, gaining practical experience in penetration testing and vulnerability assessment.
- Earned **Linux Fundamentals** certification from **Red Hat** (Nov 2024), demonstrating strong understanding of Linux systems and command-line operations.
- Achieved **Microsoft Certified: Azure Fundamentals**, gaining foundational knowledge of cloud security principles and best practices.
