

Career Objective

B.Tech 3rd-year CSE student with a strong foundation in C++, ethical hacking, and networking, along with a growing focus on Google Cloud Security. Eager to apply my coding and cybersecurity skills to secure cloud infrastructure and contribute to real-world security solution.

Education

Technocrats Institute of Technology, Bhopal

Bachelor of Technology in Computer Science and Engineering

Raghunath Vidyamandir +2 School, Kalasan, Madhepura

Senior Secondary Education (Class XII)

Gokhul Bhagat H/S Bhatgama, Madhepura

Secondary Education (Class X)

Projects

Shell : Command Line Interface

- C++
- Strengthened understanding of operating system and terminal-based interfaces.

Brute Force Attack Simulator

- Python
- Automated HTTP login attempts using requests and handled response parsing.

Technical Skills

- Languages : C++, Python (basic), Java (basic), Bash/ Shell scripting (basic)
- Frontend : HTML, CSS, JavaScript (basic)
- Backend : Node.js
- Tools : Kali Linux, Virtualization, Cloud Fundamentals
- Libraries : Socket, Scapy
- Databases : MySQL
- CourseWork : DSA, OS & Linux Internals, Networks, Cybersecurity Foundations
- Developer Tools : VS Code, Git, GitHub, Chrome DevTools

Soft Skills

- Problem-Solving
- Teamwork
- Adaptability

Achievements & Certifications

- TryHackMe Certified : Complete Ethical Hacking Certifications
- Udemy : Complete Ethical Hacking Bootcamp
- Google Cloud Security Certificate
- Solved 1000+ Coding question on CodeChef & 100+ Labs on TryHackMe
